

Saw Cutting

Tolerances	
Length:	+/- 1/16"
Angle:	+/- 1°

Note: Standard tolerances no longer apply due to lack of control over this clamp style

Capacities	
Max angle with standard clamping	60°
Max angle with shimming / pre-cambering.	70°
No cut can exceed linear travel	20"
Max material height (between jaws)	18"
Max material width (table to blade)	20"
Max length	60'

Shearing

- ◆ 12' max width
- ◆ 1/2" max thickness
